

AUBREY O'DAY

# BTE

BETWEEN TWO EVILS

# DT

you can say it was all a fucking fairytale or you can say it was real, But I need to know and you know whatever the truth is defines the reality of you and I forever, and I need to be able to define that before I can walk away  
*I thought it was forever at the time but maybe I was lying to myself*

Is that what you want? you want to believe that everything with me was a lie? A fantasy? And you want to go back and live in the life you had have forever?

*I don't know I couldn't do what I said I would do so that answered the question for me. I'll always want you and always wonder about it but it doesn't matter because I have to stay here*

What made you stop believing in our world?

*I don't know, probably the loss of the other world. I'm torn between two worlds both of which I wanted*

CHORUS-

I hate me for loving you, hate you for letting our love die

Tell me you love me I need you to do that. *No you don't*

*yeah I do, I need to know it before I walk away*

*No that's exactly what's stopping you from walking away  
No it wouldn't, that's exactly what would help me walk away  
you know everything anyway you're the only one who ever knew my heart*

I have to move on I need your help I can't believe

this was all a lie you have to tell me you love me

*I don't cause you're a fucking pain in my ass*

Tell me you love me and I won't talk to you anymore, ill leave you alone

*Look, it doesn't matter, it can't matter, the truth will only kill us both*

*you have to say it once to yourself and to me and then I'll go*

*I love you. Talk to you later*

*But later never came*

# Unchoose You

Do I die over you  
I like the idea of you  
But not the way it feels with you  
Why can't there be an option two  
Pyromaniac, I like playing with fire  
But you take too much pleasure in me burning alive  
Tell me why

What if I fall alone  
What if my heart chose wrong  
How do I take control  
How do I unchoose you

x

CHORUS-

How do I unchoose you?

Could there be a light  
Or will only your dark survive  
Stripping me of all my life  
Prefer your hell to paradise  
Wonder when the real me started to hide and this imposter turned my truth to a lie  
Don't know why

What if I fall alone  
What if my heart chose wrong  
How do I take control  
How do I unchoose you

x

CHORUS-

Every night with you  
I regret in the morning  
How empty off me to be so full of you  
You're the only option I shouldn't have chosen  
So deep in my veins how can I pull through  
How do I unchoose you  
CHORUS-

# Love Me When You Leave

The door slams and the fear sets in - Already awaiting your call  
- I never know quite where I stand - Until we both here alone  
- Why am I a secret - When our love can scream so loud  
- Am I in denial - Is my heart the only sound  
Love me when you leave - Love me when you go  
When you're here were everything  
When your gone I never know - When you go  
Love me, love me, do you really love me x

# Let Me Lay

How big a gun would it take to shoot the sun out the sky  
So daylight won't take you away  
Can't wait to sleep, let my mind close the distance from where I  
stand and where I wanna be

Paralyzed I'm staring in the distance waiting for the night I'm  
waiting to get back to my life cause this one aint right, no this  
one ain't right I gotta close my eyes to feel alive

CHORUS-Oh, realitys overrated  
If all we share is only in my dreams  
Oh, the sunlights only waisted  
If daylight can never be  
Then I only wanna dream

Let me lay here, Let me lay here, Let me lay here, Let me lay here x

Id sell my soul for a pill that could keep me in this other dimension with you. There every-  
thing that went wrong is corrected I can taste what will never be true.

Paralyzed Im starring in the distance waitin for the night I'm waiting to get back to my life  
cause this one aint right no this one ain't right

CHORUS

I'll be addicted to you for a lifetime  
But only able to feel you in the nighttime

CHORUS

# Hurt So Good

you should be killed  
For your kills  
For your crimes against my love  
Which you steal, whyd you steal  
When you don't know what you want

If you kiss me I wont feel the knife cut  
Touch me right and I wont fight ill give up

you  
You're the shit  
But you aint shit  
And I still cant get enough

A CHORUS

Call when you want me, it hurts so good  
Deny u love me, it hurts so good  
Ya take off running, it hurt so good  
Break my heart come on it hurts so good

B CHORUS

How much you got cuz I can take it boy  
The way you love me hurts so good  
Im on my knees the way you like it boy  
Ur killing me it hurts so good

# Before I Drown

Chains

Wrapped up in chains Engraved with your name All in vain  
Waves swept me away I called out your name But you never came  
My life just flashed before my eyes I know I wont survive if I dont escape  
Say goodbye before I take my last breath Make me one you forget Throw me away

CHORUS you watched me fall you held me down Will you pull me back, before I  
drown Wheres your heart Please let me out Will you pull me back, before I drown  
Strong your tide is strong Been treading so long My will is gone Saved Can  
I be saved Are you entertained While Im in pain  
you led me on just to feel wanted Damn I hate your ego why cant you  
change Look how deep youve got me here Im sinking Willingly Im waiting  
Just in case

CHORUS

# Second Call

(Interlude)

He's all up in my head  
He won't get out  
Sitting in my bed, with my tit out  
He can't talk  
so you're who I'm gonna call

I already know  
That you're wit it  
yeah it's been a while  
since we did it  
hope she's still at work, til you get me off

Damn your voice is familiar  
Sometimes I can't help but remember that shit  
you talk  
say that thing help me get there  
Tell me what you want ill pretend that its  
his touch

you're my crutch  
My second call  
There when it can't be him  
Just pick up  
ill close my eyes  
Like your who I wanna be with

you're my crush  
My second call  
There when it can't be him

For now  
He's gone  
so ill move on  
To my second call

# Devil & Me

The devil and me  
We had this thing  
we called an understanding  
I gave my soul  
Go ahead and feed on me just grant me power  
I'm a willing victim just to be admired  
Named your price and as soon as I signed it was  
higher

There's no escape  
This streets one way  
Leading to a dead end  
Covered up in dead men  
Wish I learned the lesson  
Woulda never got in  
I want to escape  
But there's no way  
It's only a dead end  
Covered up in dead men  
Everyone is left here  
Feeling betrayed

Go, if you meet him run away  
Go, save yourself ill take the blame  
Fame is my fate

you know your caught  
when your sins no longer make you guilty  
you're living to sell  
The devils work can only leave you empty

# Outro

Coming for me,  
it's coming for me  
again  
I feel it coming,  
coming for me  
again

I can't deny being  
seduced by evil  
so as much as it  
burns  
I'll sit in between  
and wait for my  
next turn
